the Villista forces morth of dimenes, has be been able to muster his men and give buttle. It is my opinion that, with the forces now in Forces, Gomes, Palacio, Escalon, Jimenez and Cultua-hua, and those that have come from Sonora, about ready to cross into Chihanahua, together with those under immediate command of the Muruha, Villa's power is at a very low tide and that he never will be able to come back' to his former position as military leader.

"I believe that when Villa finds out that his friends in southwestern (Thihanhua and northern Durango have descented him, he will lead in person another expedition against some border town, or will incle his men to commit such acts as he has done in the past."

Mr. Brown will leave shortly for a mine hear Ft. Thomas, Cochise county, Arizona, which he, with associates, will develop, expecting to ship copper or within 60 days.
